CELEBRATING SHOREWOOD PUBLIC SCHOOLS

Dear Parents, Educators and Friends,

These last two years have been full of so much uncertainty relating to our children's education. We all, parents, educators, and community members, navigated these uncharted waters from so many different angles; each of us trying to meet the needs of our families, who were stressed, sometimes scared, but above all constantly shifting. Looking back the only thing I can say with certainty is that families needed, and continue to need, choices.

I have heard many stories of families forced to prioritize their work, finances, and the needs of the district over their children; for some families these conditions existed even before the pandemic.

In spite of all the challenges in our community, I am also optimistic. I am so proud of the efforts that everyone sitting in this room has made. We understand the need for creative options, avoiding the mistake of a one size fits all approach to education... but to be creative, we have to have funding.

Thank you all for being here at the SEED Foundation's largest event. Thank you sponsors who continue to invest in Shorewood's educational future, especially our presenting sponsors: First Weber Group of Realtors and Baird. We thank our district staff and educators, who are the brains behind innovative approaches to meet the needs of Shorewood students. Finally, all the family members who donated time, an item for our auction, bought one raffle ticket, or thanked someone for their hard work. It all makes a difference.

Enjoy the evening.

## WHY IS PRIVATE FUNDING NEEDED?

As a public institution, the Shorewood School District is publicly funded. While political will and funding capacity are constantly in flux in ways that challenge public education, the Shorewood SEED Foundation is a constant advocate for ensuring access to equitable and sufficient funding to support our kids and schools. SEED helps Shorewood Schools navigate funding challenges, moves quickly in times of unprecedented need or crisis, and helps to maintain the Shorewood tradition of educational excellence via our generous donors.

The District will be forced to implement spending cuts in the upcoming budget due to increased cost to retain quality educators, years of cuts to special education funding, lack of increased State funding per student in the face of significant inflation, and declining enrollment, among other factors. Details of proposed cuts will be shared at the upcoming school board meetings.

## WHAT CAN YOU DO TO HELP? HERE ARE 5 ACTION STEPS!

1. **Donate to SEED:** The Impact to our kids, teachers and community is significant.
2. **Educate yourself about school finance and how public education is funded in Shorewood.** Advocate for more State and Federal funding for public schools.
3. **Share your positive experiences with friends** and neighbors as a public school family to assist in increasing enrollment.
4. **Understand the impending budget cuts** by attending the upcoming May 24th and June 14th school board meetings.
5. **Learn more about SEED by visiting [shorewoodseed.org](https://shorewoodseed.org),** attending SEED events, and volunteering. We have many volunteer opportunities throughout the year and currently have needs in marketing, photography, videography and event planning. Spread the word to your friends and neighbors, because it truly takes a village!

**How to Donate:** Every dollar helps our schools, and no donation is too big or too small. Please mail donations to: Shorewood SEED Foundation, PO Box 71235, Shorewood, WI 53211, or donate online at [shorewoodseed.org](https://shorewoodseed.org).

### A Letter From the Board President

Thank you for attending Swing with Shorewood 2022. We are so glad to be back and IN PERSON this year. This year marks the 19th anniversary of SEED, and we are so fortunate to have loyal sponsors and attendees who join us and support the importance of excellence in public education each year, even virtually. Thank you to the teachers, staff, and administration for all of your efforts the past two years. You have all been amazing in your dedication and FLEXIBILITY, and words cannot really express the gratitude. You are truly heroes!

The generous support of our sponsors has been key to the event's growth and success. I want to extend our deepest thanks to First Weber Group Realtors for their continued presenting sponsor partnership, and Baird and Buelow Vetter for their increased participation and partnership. To JoAnn Sternke, Megann Hendrix, Classy Girl Cupcakes, Injury & Disability Law Office of Wisconsin, GoodGood Media and Avenue Systems, thank you for joining our group of Swing Sponsors. Also, thank you to North Shore Bank, Shorewest, Miron and Epstein Uhen Architects for your continued sponsorship. Thank you to the hundreds of donors to our online auction, super silent auction, and wine pull. Every donation helps positively impact SEED's donation to the Shorewood Public School District.

I would like to thank Sarah Lehmann, the Swing Chairperson, the Swing committee, and the SEED Board for all of their efforts to make this incredible event happen. We have started a wonderful tradition in the community, and it takes many volunteers to create this wonderful event. It has been a pleasure working on SEED and Swing throughout the years, and I have made many great connections and dear friends, thanks to my involvement. I encourage ANY and ALL of you who have the slightest interest in helping to get involved either with SEED or Swing with Shorewood. We need YOU! It is imperative that we engage new and young volunteers for our organization to thrive. We are thrilled to have added Tracey Barrett, Erica Elia, Rodney Lynk Jr., and Ian Elfe as new members to our board. If interested in volunteering, please contact me at mnelsen4@gmail.com.

In 2003, we were called upon to help meet the rising need of increased educational costs, decreased enrollment and decreasing state aid. We are currently seeing similar dynamics at play for the near future in funding our schools. This event helps to keep Shorewood moving forward in funding excellence in our public schools. Please take the time to read further in this booklet for information about the district's challenges. We are not alone – public schools are feeling the funding challenges across the country. Unlike 2003, we are an established organization, better prepared and will help raise as much as we can to offset cuts. Together we can help to protect beloved programs, educational opportunities and continue the drive for excellence in education at Shorewood. Your support and donations will have even more impact during this critical time, so please, as the saying goes, bid high and bid often...or just make a donation.

Again, many thanks for joining us at Swing with Shorewood and for supporting the SEED Foundation mission.

Our apologies to any individual or organization whose name was inadvertently omitted, listed incorrectly, or whose contribution was received after this printing.

### A Letter From Dr. JoAnn Sternke

*Our students are leaders who challenge themselves to grow and achieve academically, pursue their passions, navigate change, learn continuously, and contribute to the common good.*

Dear Friends,

First of all, thank you so much for your generous support of Swing with Shorewood 2022. I was looking forward to attending and then the date changed! Unfortunately, a long-standing commitment will be keeping me away, and I am so sorry I can't be with you at the event but I hope you all have a fabulous time!

It has truly been my honor to serve as Interim Superintendent in the community where I started my career. No district is so fully dedicated to student success—academics, character development, citizenship and equity for all—in the way that Shorewood is.

In a fast-changing world, the guiding principles of our district are more important than ever. Our Shorewood students are the next generation of leaders, innovators, thinkers, parents and neighbors, and they inspire me every day by bringing our mission to life through academic work, projects, and their respect for each other.

The same “Shorewood” spirit is what led community members to establish SEED almost twenty years ago to help the District address reductions in state funding. Fast forward to today and proceeds from SEED’s Annual Campaign and Swing with Shorewood continue to impact all students, all programs and all schools, year after year. Over time, SEED has become a vital partner in preserving, enriching and establishing programs and student experiences that continue to set Shorewood apart.

I am deeply grateful to the SEED Board and the 2022 Swing with Shorewood Committee for planning this important fundraiser and annual celebration of our schools. I also want to extend my thanks to our amazing District staff. I could not ask for a team that is more invested in the vision we share for student success and I am lucky to work alongside them.

Lastly, to everyone who supports our mission through donations of time, talent and resources to SEED, thank you. Our students benefit in countless ways from your generosity, and you are helping create a better future for all of our children.

With Gratitude,  
Dr. JoAnn Sternke  
Interim Superintendent

# SHS WISHLIST

## Watershed Wisdom - Canoes and Trailer

For over 20 years Watershed Wisdom has provided students an opportunity to learn through outdoor adventure, academic rigor, and direct contact with our region's most important resource: abundant, free running, fresh water. Rooted in a 10-day expedition in the Milwaukee River Watershed, the class invites students to combine their understanding of ecology, literature, and art in a series of interdisciplinary projects shared with our larger community at the end of the course. For their efforts, students earn three credits: one each in art, English, and science.

As hundreds of SHS alumni and parents will attest, the course has been a tremendous success. In many cases, when asked what pointed them in the direction of their career path, SHS alumni respond with a smile and say, "Watershed."

Watershed Wisdom would like to purchase five additional boats and a trailer to carry them. Currently, the program's costs include almost \$2000 per year to rent 5 canoes and a trailer. While some of that cost is offset by a course fee, it would make more financial sense to own this equipment outright. Our current estimate for these crucial acquisitions is \$10,000. At that cost, we would see a return on investment in only 5 years, after which the cost of upkeep would be only a fraction of the continually rising cost of rental.

**Goal \$10,000**

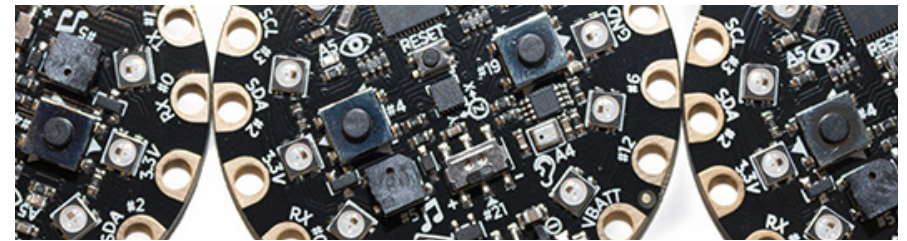

# SIS WISHLIST

## 2 Full Classroom Sets of Circuit Playgrounds

SIS wishes for two full classroom sets of Circuit Playground for Science classes. Circuit Playgrounds are a small microcontroller boards with LEDs, buttons, and sensors built-in. Designed specifically for novice programmers, the Circuit Playground enables students to get up and running quickly with physical computing without worrying about many of the traditional barriers to entry. Circuit Playgrounds will introduce students to the fundamentals of computer programming in an interactive environment and get real-time feedback using the lights and speaker on the board. Circuit Playgrounds can be programmed on Chromebooks and can do lots of different types of codes including different lighting, sound, motion, and a few different sensors.

**Goal \$700**

# ATWATER & LAKE BLUFF WISHLIST

## Urban Ecology School Membership

Lake Bluff and Atwater students love visiting the Urban Ecology Center! With budget shortfalls looming, both schools will need help continuing these trips and the environmental education opportunities they offer next year. A school membership would provide 24 field trips for each school in the 2022-23 school year. Please help us reach that goal.

**Goal \$4,800**

You can always spot the student who spent their summer with Mathnasium.

Summer. It's the time for kids to relax and enjoy some much-needed fun. But summer is also the ideal time to do something that will give them a huge advantage when school resumes in the fall: Accelerate their math skills with Mathnasium.

While most students experience math learning loss over a normal summer, disruptions due to the pandemic have caused many kids to fall behind even more. Mathnasium's personalized Learning Plans are proven to improve grades and help kids catch up and get ahead in math.

*And don't worry — your child will still enjoy their summer. Because we make learning math fun.*
